Officials' Comments

Organiser's Comments (Elaine Sutton)

Well I think that went all right on the night. We had 24 brave runners, some of whom were doing their first night orienteering. There were no reported incidents concerning gangs of feral youths although the fireworks going off all evening were a bit distracting.

We did lose an SI box sometime between the morning school event and the evening pre-event check which was replaced, however it's annoying to have kit go missing even when it was gripped.

I have lots of people to thank for all their help and advice on my first organization of an event, not least Malcolm, Noel, Chris, Simon, Jean, Bob, Darren and Siân who all gave their time and effort towards making it a successful evening.

Also a big thanks to the manager and staff at The Cherry Orchard for going above and beyond in setting aside a corner for our use and allowing us to plug in computers etc to give live results on the night.

Planner's Comments (Chris Calow)

When available

Controller's Comments (Noel Schorah)

Thank you to Chris for planning courses which made good use of the area, from a look at the results the course lengths seemed to be about right.

Hopefully the competitors all found the courses interesting and enjoyed the challenge of finding your way around Arrowe Park in the dark, with its mixture of fast open parkland and slower wooded areas!

Well done to Elaine for efficiently organising this event and thank you to everyone else who helped on the night.
