Officials' Comments

Organiser's Comments (Andy Payne)

There were no organisational problems with the event which went smoothly. An area indoors for Registration and nearby locations for start and finish near to the Assembly area were appreciated on a cold January day. The car parking at the hotel was just big enough, saving us from using the public car park which is always popular.

Thanks to all the helpers who, as usual, did their jobs efficiently and with little fuss.

Also to the following for their assistance and support:

Wirral Borough Council
The National Trust
Natural England
The Friends of Royden Park
The Hillbark Hotel

Planner's Comments (Graham Nilsen)

I hope you all enjoyed yourselves. Looking at Routegadget, it certainly seems that many of you were determined to inspect parts of the area which I hadn't expected you to visit ...

Would you have found the original map (see next page) easier?
