

Organiser & Planner's Comments

I hope that you all enjoyed your evening run at Frodsham. Contours were included on the map due to the significant amount of climbing required to reach the top of the hill. To compensate for the climb, the controls high up had a significantly higher points value. However, the view of the 'elite' competitors seems to have been that it was better to miss out on the more distant controls.

I was especially pleased to get attendance by visitors from 'neighbouring' clubs MDOC, SELOC & SLOW (!). Also it was great to see some families & individuals trying Street-O for the first time. Please do not be despondent if your scores appear comparatively low, the 'experts' have been doing Street-O for 'donkeys years' and have got the point collection down to a fine art! I hope that you will all try it again at our next DEE Street-O event in Chester on Tuesday 6th March (see <http://www.deeside-orienteering-club.org.uk/events/club+events.htm> for details).

We had some **incorrect answers** as follows:-

#16 Answer 1 instead of 7 (John Padget)

#19 Answer 4 instead of 6 (Stephen Martin)

#22 Answer 1 instead of 3 (Jenny Palmer)

Answer 2 instead of 3 (Emily Smith, David Smith, Tim Palmer & Clive Giddis)

This was the control that received most incorrect answers – but there were also a very large number of correct responses. I will check the control site and adjust scores if appropriate.

#34 Answer 2 instead of 3 (Dave Bargh)

#38 Answer 004 instead of 002 (David Smith - this looks to me like the correct answer was written in the wrong box?)

Answer 04A instead of 002 (Norman Hall)

#45 answer 4 instead of 5 (Rick Hughes)

#46 answer 7 instead of 5 (John Padget)

#48 answer 5 instead of 55 (all visitors to this control) – **answer allowed as one of the discs appears to have fallen off the TP**

#52 answer 181 instead of 196 (Paul Chevasse & David Wathey)

#66 answer 18 instead of 10 (Mike Smithard & Richard Griffin) – this looks to me like the correct answer was written in the wrong box (answer to #68 was 18)

#68 answer 17 instead of 18 (Pete Owens)

Apologies to all who had their answers disallowed, but it is only fair to the majority of people who got the correct answer.

Thanks are due to Simon and the staff at the Bear's Paw for welcoming us to their pub for the evening. It was great to get a separate heated area set aside for changing – a rare treat!

I am greatly indebted to the two 'Fine Fellows of Frodsham'; Andrew Tarr & Bob Elmes who prior to the event checked the map & control sites and who also were invaluable helpers on the night of the event. Andy Payne was also volunteered by Jean to help on the Start – thanks to you both! Finally a big thank you to Kate for going 'above and beyond' to help keep her frazzled husband under control.

Thanks you all for coming!

Steve Ingleby (DEE)
