

BILBAO VIRTUAL O QUESTION SHEET

Use Google Street View, together with the map to navigate you way around the course, answering the questions at each control. If you find that you cannot move forwards in Street View, it may help to exit into satellite view and then go straight back into Street View.

You should be able to find the control sites and answer the questions using street view only. There is no need to use the blue photo sphere circles. The questions have been selected so that you can answer regardless of the version of Street View that you are using.

Bilbao is a super city and the City Race was planned to take in most of the sights. These included some 'tricky or impossible to get to in Street View' places so a number of control sites were vetoed during controlling of this event and one or two hints have been added to help you out.

The start is located in Plaza de la Salve.

Control	Question	Answer
Start	Where colour are the gates at the start? _ _ _ _ _	
1	Not accessible	
2	What colour is the painted wooden fence at the control Hint: You can view the control site from the road marked out of bounds. _ _ _ _ _
