Organiser's Comments (Pat Moody)

Thanks to everyone for helping at the first Summer Evening Event of the season. Things seemed to run pretty smoothly, the sun shone, and all the runners returned before it got dark.

The friendly little dog from the nearby farm that was lost finally reappeared, having done the light green course with some competitors and their dog. I believe all the control pickers also returned safely...

Planner's Comments (Pete Owens)

I hope everyone enjoyed exploring some of the more obscure corners in the forest - even if you don't want to see some of those corners again. It is a bit of a challenge to devise courses that avoid a lot of track running in Delamere, but last year's remapping identified the possibility of surprisingly runnable terrain through the green bits of the map.
