Chester City Sprint
12 October 2008
Officials' Comments

Organiser's and Planner's Comments

We had the idea of mapping Chester after attending the first York Race several years ago and it was a pleasure to see it happen today.

Our thanks go to:

- James Duckers from Chester City Council for his enthusiasm and support, his practical help and guidance and for coming along today to see it all happen
- Malcolm McIvor and Chris Smithard for the map
- Graham Nilsen (and MEROC) for printing maps
- Bob Elmes for the computing
- Barbara Jones for enquiries and a myriad of other tasks
- Andrew Williams for photography
- all of you who came and ran and helped.

Watch out for the fixtures next year when we are aiming for a full city Race (the courses are already planned.....)

Nick and Jane Campbell
