Thanks to all who braved a rather damp and cold evening to enjoy the delights of Ellesmere Port at night. The area is quite a good one for a Night Street League as there are some quite complex parts.

Many thanks to Jane and Pat for doing registration and answer checking.

The only issue seemed to be with control 61 which could not be accessed from the open area due to a locked gate. I only checked it from the road and missed the lack of access from other directions. My apologies for this. There's always something to catch the planner out.

See you all at next season's NSLs.
