

### **Controller's Comments**

I hope you enjoyed your run in the snow at Marbury. Firstly I would like to thank Rebecca Mc-Creadie, who planned the Club Champs back in 2020. Sadly she was unable to attend the 2021 event due to the enormous amount of work she has on at present. Jane stepped in and not only became 'in loco' Planner but also event Organiser as well. She was ably assisted by Sara, who helped with taping controls + putting out / collecting controls on the day.

Congratulations to all the prize-winners who managed to avoid the traps that Rebecca set. To those that fell foul, remember to always check the control code! Controls on similar features were separated by approx. 100m, well in excess of the BO requirements.

### **Organiser's Comments**

Like Steve, I would like to thank Sara for all her help. In addition, thanks to Liz Jackson for collecting in controls and Bob, Norman and Pat for SI.

Thanks also to volunteer cowboys Paul Shannon and Gwyn Thomas (who I had to make redundant as the field was empty yesterday morning) and especially Margaret Murphy who had the chilly job of watching the finish.

And a final thanks to:

Steve for sorting out all the courses in Condes to be print ready and for spotting my errors and Robin Tilston and Graham Nilsen for printing the maps - the last print run for Robin before his retirement.

The weather forecast did say that it might snow during the afternoon but not quite so much. The area was deserted by the time we collected the controls in. The kites, boxes and gripples were encrusted with snow and there were very few people around.
