Organiser's Comments (Pauly-D Jones)

Firstly my profuse thanks to clubmates who willingly agreed to provide their time and expertise, with particular appreciation due to the helpers who weren't even getting a run.

David from the White House was super-accommodating again, mowing the grass to provide a pleasant area for the tent to be pitched on and for people to socialise. Thanks also to the quarry management at Tarmac and the always helpful Alwyn on-site.

The farmer, John Lightfoot, was also very supportive and it was good to finally meet him in person. Setting out the controls was made somewhat more exciting by John's sheep, who thought the bags we were carrying contained food for them!

Last but by no means least, your Planner, Dan, put together some great courses and proved very patient with all my suggestions for control sites, etc. A good turnout and lovely weather made it all worthwhile and enjoyable.
